Dear Parent(s)/Guardian(s):

New Jersey law requires that all students entering grades 9, 10, 11 and 12 must have been vaccinated for Hepatitis B.

Upon receipt of the first dose of Hepatitis B vaccine a child may be granted provisional admission permitting them to remain in school while receiving the remaining doses of the Hepatitis B vaccine series within the allotted time frame.

All students must be in compliance with the New Jersey immunization regulations in order to be admitted to or remain in school, unless a child meets the criteria for receiving a medical exemption or religious exemption from school officials.

Pupils will be excluded from school for noncompliance.

Parent(s) should review their child's immunization records and consult with their physician to ensure that this vaccine has been given, is in the process of being given, or is scheduled to be administered in the near future. Parent(s) should make the necessary medical appointment(s) with their physician or regular source of medical care, if their children are not yet immunized.

If you have any questions or concerns regarding this notice, please call Stacey Connolly, R.N. at 973-835-4989x232.

Sincerely,

Christopher Pagano
